Language

Swedish - Native speaker

English - Fluent

Finnish - Fluent

French - B2 intermediate

Skills

I've been growing the AI Tinkerers community from 400 people to 1000 since joining the community.

The overall satisfaction score for AI Tinkerers events in Paris is 4.3/5.

I was the main organiser of a 200-person hackathon last February.

I've recently built a <u>web app</u> that generates a video from an image using the Lightricks/LTX-Video model.
